

Ano-Tech Metal Finishing
ANODIZE SPECIALIST

May 25, 2006

To Whom It May Concern:

Our company, Ano-Tech Metal Finishing, has been doing business with Anacon Laboratory for many years and continues to do so presently. Bruce Klingler was our contact and was a pleasure doing business with. His wealth of knowledge in the field of metal finishing helped guide us through many troubled times with numerous problems we had with our chemicals and processes. His advice and suggestions were used numerous times and in turn helped us work through and solve our problems. We highly recommend Bruce's services in his new endeavors.

If you need any additional information, please feel free to contact me at any time.

Sincerely,

A handwritten signature in black ink, appearing to read 'Brett A. Hunter', with a long horizontal flourish extending to the right.

Brett A. Hunter
